LOfavør Pension capital certificate

Membership of an LO union offers excellent terms for your pension capital certificate. Collating your agreements in one place also allows you to avoid unnecessary annual fees, while providing a simpler overview and better control over your future pension. You have a pension capital certificate if you have previously worked somewhere that adds pension savings for its employees in a contribution-based occupational pension.

As an LO member, you get:
- Lower administration costs and the share unit is scaled down in proportion to your age. You also have an annual yield guarantee during the payment term. This insures you against negative yields during the payment term.

LOfavør Accident insurance

- injuries sustained in accidents outside working hours that lead to permanent disability or death
- for children, this cover is valid 24/7
- medical and dental expenses concerning injuries sustained in accidents in the Nordic region, up to 5% of the sum insured for invalidity
- until you reach 75 years of age

This is how the compensation will be calculated in the event of an accident:
The sum insured applies to full and permanent medical disability. If, for example, you become 60% disabled, the compensation will amount to 60% of the sum insured. The sum insured depends on your family composition at the time of injury.

The sum insured will be paid out according to your family’s situation at the time of the accident, based on the following table:

Did you know for example that:
- hotels and car hire companies often reserve an amount on your card for a short period of time in order to guarantee payment? If you use a LOfavor MasterCard, you avoid tying up money in your current account.
- LOfavor MasterCard can be used anywhere that offers electronic ticketing? If you state your card number when you book, you can use the card itself as the ticket and travel paperless.
- paying with your LOfavor MasterCard can give you added security, as the card company will often be able to help you get your money refunded if the supplier of a product or service goes bankrupt.
- it can be a good idea to use the LOfavor MasterCard when travelling, as nobody will then have access to your current account and you can avoid losing large amounts of cash due to theft or your travel account being emptied.

Sooner or later, almost all of us end up in a situation where we need, or should have, legal assistance.

Hiring a solicitor is expensive. We offer two reasonably priced ways in which to obtain good legal assistance.

You can read more about these two services below and on the next page.

Legal assistance

As a member, you will get the benefit of a solicitor to deal with your private matters.

The law firm Legalis has 12 solicitors with many years’ experience within all areas that you may need as a private person. During their life times many people will need help with regard to separation/divorce, inheritance, home buying, neighbour disputes and pension. If you are unsure if you need help you can always just pick up the phone and talk with the solicitors in Legalis. Through LOfavor you are entitled to free consultations on the phone without any obligations.

Legal assistance coverage

For further assistance concerning disputes, you can get help from Legalis to apply for legal assistance cover through LOfavor Collective home insurance. With this insurance most of your legal costs are normally covered in most cases.

LOfavør Legal insurance

With the legal insurance policy, you will have your own solicitor from HELP Forsikring. HELP is one of the largest legal firms in the country specialising in private legal services. This policy gives you and your family the right to specialist legal assistance in the most important areas of private law. As with all types of insurance, your need for assistance must only arise after you have purchased the insurance. You won’t pay any hourly rate, just the insurance premium.

The insurance covers:
- help from a solicitor to prevent conflicts and if necessary pursue your case all the way through the legal system.
- no fewer than 15 hours of general legal advice a year
- legal assistance for up to NOK 2 million in the event of a legal dispute. This also covers the other party’s legal costs
- access to legal agreements and forms, prepared by solicitors

What can I use the legal insurance policy for?

Adultery/misconduct: Marriage and cohabitation always ends in some way whether it is caused by disputes or by death. The solicitors from HELP can advise and help in the situation whether the parting is on friendly terms or not.

Child-related matters: Parents who do not live together sometimes disagree about parental liability, residence and visitation rights after a breakup. These are demanding cases characterised by strong emotions. The solicitors from HELP will try to find solutions which are in the child’s best interest.

Inheritance: Whether you have questions about the rules of inheritance or you want to make a will or you find yourself in an inheritance dispute you can get legal assistance from the solicitors in HELP. You can avoid conflicts by speaking to an expert at an early stage in the process.

Purchase disputes: There are many potential pitfalls associated with the purchase of goods and trade services. The solicitors from HELP will handle your interests when you buy or sell a product or a service.

Real estate: Advice in neighbour disputes, issues with building authorities, rent questions, joint ownership and housing cooperatives as well as legal assistance in neighbour disputes or rent disputes.

Contracts and legal documents: Legal assistance to create for instance marriage contracts, cohabitation contract, visiting rights to children, contracts about hedges/trees, purchase contracts, inheritance agreements and wills.
